Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, there will be lane closures on the US 30 bridge over the Mississippi River between Fulton, Illinois and Clinton, Iowa on Monday, August 3, 2015. M & M Concrete will be applying a concrete sealer to the bridge deck to help preserve the structure from water and salt entering the concrete.

Traffic will be restricted to one lane while the work is completed. Drivers should be prepared to stop for vehicles waiting for the flaggers that will be controlling traffic flow.

Please slow down and use extreme caution while driving through all work zones.
